

Testimonial for Laura

...

Also I have attached Laura's yr 3 NAPLAN – so that you can perhaps create a testimonial that speaks volumes for your great work.... eg this is what it was like in yr 3 NAPLAN – yr 4 got even harder and more frustrating for Laura. Less results achieved and Laura was anxious and disempowered and avoiding reading etc till finally parents knew that the extra assistance being provided at the school was not making any real difference. Then approached Tyquin because another family recommended their programs. Laura was assessed in May 2009 with revealed a reading age of xxx etc (see <http://www.tyquin.com.au/Evidence/BR%20Data3%20NEWFORMAT.xls> see ID# 7567 on the spreadsheet)Ed. - we started with cellfield, STARS and now reading program (Behavioural Reading) Ed. with great results being reflected in the YR 5 NAPLAN after just 5 mths of working with the Tyquin Group. Ongoing reading classes continue to boost Laura confidence, develop good reading /learning habits, and work on her phonics and spelling so that Laura develops to her full potential....

I give you creative license around this to construct a raving fan testimonial!
That's me a raving fan!

Kind Regards

Helen
